SR-16 16-BIT STEREO DRUM MACHINE

THE CLASSIC DRUM MACHINE FOR COMPOSITION, RECORDING AND ACCOMPANIMENT. As one of the most popular drum machines ever made, the SR-16™ has been used by everyone from songwriters to live performers to remix engineers as their drum machine of choice. It features a great selection of over 200 realistic, natural drum sounds, offered both in dry form and sampled with our quality digital reverbs.

Alesis’ exclusive Dynamic Articulation™ feature enables a drum sound to change its tonal content as it’s played harder — just like an acoustic drum — for truly realistic performances. The SR-16 features 50 preset patterns that were actually played in by top studio drummers, not just programmed and quantized. You’ll find enough built-in rhythmic variations (with A, B and two Fill sections) for composing complete arrangements, and you can create and save your own customized patterns and songs.

SR-16 provides complete MIDI implementation, a footswitch input, flexible programming and editing features and velocity-sensitive pad buttons. It’s easy to use so you’ll be up and composing in minutes. Whether you need a songwriting partner or an accompanist for live performance, turn to the all-time world standard in drum machines: SR-16.

TECH SPECS:
- Audio Outputs: 4 (2 stereo pairs)
- Pads: 12 velocity sensitive (w/Dynamic Articulation™)
- Sample/DAC Bit Resolution: 16/18
- Sounds: 233
- Sounds Accessible via Pads: 12
- Sounds Accessible via MIDI: 120
- Polyphony: 16 voice
- Panning: 7-position user programmable
- Velocity Response: 8 loudness levels via pads, 127 via MIDI
- Timing Resolution: 96 ppq
- Time Signature Range: 1-128 beats per pattern
- Tempo Range: 20-255 bpm
- Notes/Patterns/Songs: 12,000/400 (200 user, 200 preset)/100
- Kits: 50 user, 50 preset
- MIDI Program Change Response: Kit
- Sync: MIDI Clock/Song Position Pointer
- Footswitch Jacks/Functions: 2; start/stop, count/A/B/fill

OTHER FEATURES:
- Sound stacking, step editing, stereo samples with reverb and ambience
- Dynamic Articulation: Modulates tone
- Power: 9 VAC External Transformer, UL and CSA Approved
- Dimensions: (WxHxD) 9.25”x1.5”x6.5”
- Weight: 2.5 lbs
